

Instructions for Completion

This Excel workbook was developed to serve as a template for providing the data required by *Implementing Regulation* (IR) C-23 P "Trainee Admissions, Support, and Outcome Data" in a clear and consistent format. There are three additional worksheets in this file, each composed of tables required for each of the outcomes in the IR. These tables have been copied directly from the most recent version of the IR, approved by the Commission on Accreditation in April 2016. **Deadline to post data:**

December 1

To complete each table, simply enter the appropriate figures in each of the blank cells. Once you complete all of your data entry, you can: export the tables as a PDF, save each separate table as an image, or have your web designers recreate them in the format that they require. ***It is critical that you keep the row and column labels exactly as they appear in these tables.*** Your program will be considered out of compliance with the IR if they are not consistent with this document.

Please note that some of the worksheets have conditional formatting. If you enter numbers that will cause the percentages in a table to exceed 100%, the appropriate cells will turn **red**. This indicates that the raw data you've entered is incorrect. Some cells also have data validation enabled, which may cause hover text to appear. Click into a different cell and this text will disappear.

More complete information on what to include in the tables is provided in the full text of the IR, found [here](#). Please review the IR and its requirements before utilizing this template. If you have any questions about the format or the required content of this IR, please feel free to contact the APA Office of Program Consultation and Accreditation at (202) 336-5979 or at apaaccred@apa.org.

Thank you for your continued support of accreditation!

Postdoctoral Program Admissions

Date Program Tables are updated:

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

We seek qualified applicants who are excited by the opportunity to develop advanced clinical skills and obtain research experience in a selection of areas that include organ transplantation, mechanical circulatory support, obesity and weight loss surgery, trauma/burn, primary care, smoking cessation, pain management and other areas. The fellows increase their knowledge of the scientific basis for the practice of clinical health psychology and apply this knowledge in daily clinical practice, helping them to develop more specialized skills beyond the mental health practice skills developed during graduate education and internship training. They also develop in-depth knowledge of specific medical conditions and treatment regimens to better interact with colleagues in medicine, surgery and other health care disciplines. This experience provides a prototype for their ability to work with these or other medical populations and practitioners in the future. A practitioner-scientist model of training has been adopted. Fellows are encouraged to develop collegial relationships with faculty, who provide supervision through role modeling, consultation and mentoring.

Describe any other required minimum criteria used to screen applicants:

Versatility, the ability to interact effectively with others and the ability to develop liaison relationships in more than one area of health care are necessary. Applicants must have completed or be nearing completion of an APA-accredited doctoral program including an APA-accredited internship, preferably within a medical setting. Previous clinical and research experience in health psychology and behavioral medicine is highly desirable.

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Residents	\$47,476	
Annual Stipend/Salary for Half-time Residents	N/A	
Program provides access to medical insurance for resident?	Yes	No
If access to medical insurance is provided:		
Trainee contribution to cost required?	Yes	No
Coverage of family member(s) available?	Yes	No
Coverage of legally married partner available?	Yes	No
Coverage of domestic partner available?	Yes	No
Hours of Annual Paid Personal Time Off (PTO and/or Vacation)	216 hours total leave	
Hours of Annual Paid Sick Leave	216 hours total leave	
In the event of medical conditions and/or family needs that require extended leave, does the program allow reasonable unpaid leave to interns/residents in excess of personal time off and sick leave?	Yes	No
Other Benefits (please describe): 5 days of professional leave. Limited travel support to fellows who present their research at professional meetings during the fellowship year is available. The program is committed to working with fellows to accommodate individual circumstances.		

*Note. Programs are not required by the Commission on Accreditation to provide all benefits listed in this table

Initial Post-Residency Positions

(Provide an Aggregated Tally for the Preceding 3 Cohorts)

	2020-2023	
Total # of residents who were in the 3 cohorts	3	
Total # of residents who remain in training in the residency program	0	
	PD	EP
Community mental health center		
Federally qualified health center		
Independent primary care facility/clinic		1
University counseling center		
Veterans Affairs medical center		1
Military health center		
Academic health center		
Other medical center or hospital		1
Psychiatric hospital		
Academic university/department		
Community college or other teaching setting		
Independent research institution		
Correctional facility		
School district/system		
Independent practice setting		
Not currently employed		
Changed to another field		
Other		
Unknown		

Note: "PD" = Post-doctoral residency position; "EP" = Employed Position. Each individual represented in this table should be counted only one time. For former trainees working in more than one setting, select the setting that represents their primary position.
